

DESCRIPTION

BLUE MAX is a heavy duty industrial cleaner and degreaser. It quickly cuts through and lifts the toughest oils, greases, carbon deposits and all types of grime. Oilfield, industrial, marine, and municipal uses are virtually unlimited. **BLUE MAX** may be used through all types of mechanical cleaning equipment including: steam cleaners, pressure washers and automatic scrubbing machines. It may also be used in manual cleaning operations including: spray on/flush off, bucket washing, mopping, scrubbing and bilge cleaning. The special lifting action of this product will allow for easy rinsing and equipment cleaning. Formulated for use with oil separators.

SPECIAL FEATURES:

Contains No Solvents - Most products contain some type of solvent in their formulation, **BLUE MAX** does not. **BLUE MAX** contains no Butyl or any other Glycol Solvent.

Retards Corrosion - Special rust fighting ingredients assist in the reduction of the destructive forces of oxidation. **BLUE MAX** helps equipment last longer!

Quick Clean Up - Due to the special soil suspending properties of **BLUE MAX**, clean up becomes a snap. Special additives drastically reduce rinse time.

DIRECTIONS:

BLUE MAX is highly concentrated and should be diluted with water prior to use. The strength of cleaning solution required will vary according to the soil load and method of application. Use the suggested **General Dilution Table** as a starting point.

General Dilution Table

USES	BLUE MAX	WATER
Light Cleaning	1 part	40 to 100
Medium Cleaning	1 part	20 to 40
Heavy Cleaning	1 part	10 to 20
Extra Heavy Cleaning	1part	5 to 10
