

# HULK SYSTEM®-300

**100%  
Active!**

Hyper-Concentrate  
Makes one 55 gallon drum.

## BARREL - IN - A - BOX

### PRODUCT DESCRIPTION

The **Hulk System® Barrel - in - a - box** product concept is a unique way for users of industrial cleaners to reduce costs and eliminate container waste. This system represents the latest technology in detergent science and is the system of choice for operations that have traditionally purchased detergents in 55-gallon drums. You'll find Barrel - in - a - box is highly effective and easy to use.

This series of **Hulk System®** formulations utilizes not two, but a single 100% active hyper-concentrate to deliver it's cost-slashing benefits. **Hulk System® 300 BNB** was designed to produce an effective concentrated material that will meet or exceed the tightest standards for employee safety and/or adverse environmental impact. It is effectively neutral in pH, and is comprised of components that are readily biodegradable.

## CLEANER/DEGREASER DIRECTIONS

Add fresh water to a clean 55 gallon drum until two-thirds full. Carefully pour in both containers of Hulk System® 101 BNB. Finish filling drum with fresh water until full. This material will mix easily with your water, and the swirling action achieved by your hose will provide all the agitation necessary to bring the solution together. Self adhesive label is provided and must be applied on the container.

You now have a full drum of concentrated cleaning detergent. This product can be diluted again prior to use. Adjust dilution level to achieve optimal cleaning results.

### NOTICE

This product is manufactured exclusively for use according to label directions. Customized dilution programs are available for special applications; please call for assistance.
