

Welcome to Wechem, Inc.,

WECHEM is proud to announce the release of our new official website: www.wechem.com. Our new website will allow customers to browse and get access on real-time MSDS, labels, product descriptions, product pictures, packaging, and list prices. Customers can sample our products by filling out the customer service form. They can also sign up to our mailing list and receive quarterly newsletters, sales promotions, and other special events. Three new videos have been incorporated onto the website to educate and inform customers of our new products and services.

The website was designed to be an educational tool suitable to satisfy our customer's needs. At Wechem, we want our customer's visit to be easy and efficient.
